

## BAND BIO

Glostik Willy is the life support for the rock & roll you thought was dead. The band formed in early 2008, and since then has grown to be a driving force in today's scene bridging the gap between rock, jam and funk, forming their own genre of music that can only be described as "Hippy Metal". GW has done 600+ performances in more than 25 states and 2 countries. The band has hosted 8 music festivals (May Daze, Stik Nite, Twig Nite, Willy Fest) and performed at over 70 festivals.

In early 2016, Glostik released their new album, **Willy Town** featuring the song "Alibi" and in July of 2015, released their very first self-titled studio album. Glostik Willy continues to record and thrive on the road spreading their love for music to anyone with an open ear.

If this group of in your face "Hippy Metal" addicts happen to stop by a city near you, be sure not to miss this amazing musical spectacle that the world knows as Glostik Willy.
